

503B · OFFICE STOCK

Stock your practice

FDA-registered US office-stock you administer in-house.

For licensed clinics administering in-office, no patient-specific prescription required.

503B office-stock is bulk-compounded by an FDA-registered 503B outsourcing facility in the United States. You order it as clinic inventory and administer it in-office — it does not require a patient-specific prescription.

One purchase order, one invoice, Account-specific pricing. Stock ships to the clinic, and your account, pricing, and order history stay yours.

TYPICAL OFFICE-STOCK FORMULARY

Sermorelin

Testosterone / TRT

NAD+

B12 / MIC

Glutathione

Amino blends

Ships to the clinic as inventory

Licensed-only

Built for licensed clinics, labs, and serious partners — not an open marketplace.

Account-specific

Formulary, pricing, and terms provisioned per account, by hand.

One partner

Research, office-stock, patient-Rx, and telehealth on one set of rails.

02

How it works.

1

Apply for an account

We verify your license and practice, then provision account-specific pricing — usually within a business day.

2

Order as inventory

Place a PO for the office-stock items you administer.

3

Administer in-office

Stock ships to the clinic and is administered in-house by your staff under your protocols.

GET SET UP

Apply at uspeptiderx.com/start — two minutes; we verify your license and provision your account by hand, usually within one business day.

503B office-stock items are compounded for in-office administration and do not require a patient-specific prescription.

Item availability varies by state and by pharmacy.
