

RESEARCH-USE ONLY

# Research compounds

RUO compounds for research organizations and labs.

For research organizations, labs, and institutional buyers.

Research-use-only (RUO) compounds supplied through our research channel — sold strictly for laboratory and research use. These are not drugs, are not for human or veterinary use, and are not part of the clinical prescribing network.

This channel is kept deliberately separate from our 503A/503B clinical supply. Research buyers order through the research entity; nothing here is represented as patient-ready medication.

## REPRESENTATIVE COMPOUNDS

BPC-157

TB-500

GHK-Cu

MOTS-c

Epithalon

Research blends

Research entity · lab use only

### Licensed-only

Built for licensed clinics, labs, and serious partners — not an open marketplace.

### Account-specific

Formulary, pricing, and terms provisioned per account, by hand.

### One partner

Research, office-stock, patient-Rx, and telehealth on one set of rails.

02

## How it works.

- 1 Tell us what you need**  
Share your compound list and quantities. We confirm availability and research-channel pricing.
- 2 Verify research use**  
Orders are for laboratory/research use only and confirmed as such — no clinical or patient routing.
- 3 Ship**  
Fulfilled through the research entity with documentation appropriate to RUO material.

Research-use-only. Not for human consumption, diagnosis, or treatment. Not a drug.  
Availability varies; some compounds are restricted or unavailable depending on jurisdiction.  
Item availability varies by state and by pharmacy.
